WORK COMP CLAIM REPORTING PROCEDURES

When work injuries do occur, report them to ACE within 24 hours. You can do so by calling 866-840- IACE any time, day or night, and their representatives have language support for employers who prefer to make the claim report in a language other than English. The typical call to report a claim takes 15 minutes or less.

You may also report a new injury by completing and faxing the state employers' first report of injury to 888-302-4267, but ACE prefers a telephone call so that they can assist you with information about physicians in their medical networks. Using medical networks to the fullest extent allowed by state law is a key way to control workers compensation claim costs.
